Platts Energy Transition Alert (ETA) gives various commodity executives including strategic planners, project developers, ESG personnel, analysts, traders, risk and asset managers relevant insight into the global and regional trends that shape the energy transition.

Building on Platts specialists’ knowledge and experience of global commodity markets, ETA offers a set of independent price assessments, industry-leading analysis and real-time news and deals information. ETA delivers greater transparency and efficiency across the fast-evolving markets that support the energy transition shift, giving you today the clarity and confidence to make the critical business decisions of tomorrow.

ETA covers price assessments and insights relevant to the voluntary carbon credits, emissions, hydrogen and ammonia markets.

This ETA quick guide is designed to help you discover and navigate content more efficiently. It includes page numbers for assessments and commentary by stream and region as well as contact details of Platts’ Energy Transition editorial team. This document is updated on a regular basis so go to www.spglobal.com/platts/en/our-methodology/symbolpage-directories to make sure you are using the most recent version.

All Platts Energy Transition News and Analysis in one location – page ETA100.

Cut through the noise with a dedicated news and insights service for the Energy Transition. Serving high-level trends as well as sector specific information, never miss a development with a focused stream market leading insight.

From the strategies and actions of global and regional companies to the intricacies of policy and regulation in producing and consuming nations, from technological breakthroughs to changes in regional pricing patterns, from global trading opportunities to key asset announcements, ETA100 gives you access to all of Platts’ latest Energy Transition news and insights in one place.

You will get:

- a real-time snapshot of what is moving voluntary carbon credits and other emissions markets, as well as the hydrogen and ammonia markets at any given time
- analytical coverage on what lies behind these markets moving events, including short and long-term trends, to help inform better business decision
