# Sponsorship Opportunities

As we transition from uncertainty to a new normal, S&P Global Market Intelligence is excited to announce the return of our annual 35th Power and Gas M&A Symposium in New York City on March 30th, 2022.

Our 2022 theme – Financing the Energy Transition – will provide a framework of critical discussions to understand how U.S. is turning words into action at COP26: to achieve 80% reduction in carbon emissions by 2030 and 100% decarbonization by 2035 in the energy sector.

Grab this opportunity to connect with top utility and investment banking executives, renewable energy executives, and policy experts in-person. Articulate your position as a thought leader and driver of the energy transition through our bespoke packages including panel discussions, presentations, and digital marketing.
