Expand Your Perspectives with
ESG Data & Research

With accelerating ESG opportunities, intensifying risks and evolving regulatory changes, Academics need a trusted partner to help embed environmental, social, and corporate governance considerations into research. S&P Global Sustainable1 data is now available via WRDS, creating a powerful 360 view to manage, measure and report on ESG risks and opportunities across industries. Our data enables you to create accurate, reliable, trustworthy, and audited data for your academic research.

Maximize Your Research Impact

Our essential sustainability intelligence has informed hundreds of research publications, supporting our academic partners with comprehensive data coverage, robust data linking and flexible data delivery.

- Use **Trucost Climate Analytics** to assess climate risk and analyze positive impact to provide insight for academic research.

- Measure company exposure by exploring environmental costs and peer comparison with **Trucost Environmental data**.

- Analyze sustainability through **S&P Global ESG Scores** and leverage our advanced scoring methodology, providing an annual evaluation of environmental, social and governance practices.

Trucost Climate Analytics include the following datasets:

Trucost Carbon Earnings at Risk

Examine the potential financial impact of carbon prices at a constituent and portfolio level under a range of scenarios. Value-at-risk indicators derived from region- and sector-specific revenue exposure to carbon pricing under three scenarios (low, medium, high).

Trucost Physical Risk

Evaluate company exposure to physical risk at the asset-level based on over 2.9 million+ assets mapped to 15,000+ listed companies. Physical risk metrics for 7 hazards (heatwaves, cold waves, drought, wildfire, hurricanes, riverine flooding, seal-level rise) and three IPCC scenarios (RCP 2.6, 4.5 and 8.5).

Trucost Paris Alignment

A transition pathway assessment, which examines the adequacy of emissions reductions over time in meeting a 2 degrees C carbon budget Identify the scale of reductions required by 2025 and beyond to meet the Paris Agreement goal.

99%

Global market capitalization covered by climate and positive impact data intelligence

jurisdictions tracked for carbon pricing

Leverage the full ESG Suite to expand your research capabilities

Broaden research by investigating sustainability scores, environmental footprint and climate impact as companies look to navigate to a sustainable future.

S&P Global ESG Scores

A market leading dataset that provides company level, dimension level, and criteria level scores based on the S&P Global Corporate Sustainability Assessment (CSA) process, an annual evaluation of companies' sustainability practice. Gain insight into deep range of environmental, social and governance data that's comparable across peers and subindustries.

Trucost Environmental

Assess environmental impacts and costs, identify, and manage environmental and climate risks as well as conduct peer and portfolio analysis from on environmental (such as climate, water, waste, air, and land) impacts.

About S&P Global Market Intelligence

S&P Global Market Intelligence is a division of S&P Global (NYSE: SPGI), the world's foremost provider of credit ratings, benchmarks and analytics in the global capital and commodity markets, offering ESG solutions, deep data, and insights on critical business factors.
