

Datacenter KnowledgeBase

Comprehensive **global and site-level metrics** and information on **7,600+** global colocation and wholesale datacenter facilities

The **Datacenter KnowledgeBase** is an industry-leading database representing the most accurate, authoritative and comprehensive set of datacenter intelligence in the market. This database provides critical insight to help providers, customers and vendors identify opportunities by detailing datacenter capacity and capabilities at a broad global level and a granular, site level.

Global coverage, country-level forecasts and time series data identifies trends and enables analysis

Understanding the datacenter landscape is critical for local and global players trying to identify opportunities for expansion or consolidation, or to place resources where they will have maximum effect at the most cost-effective price.

Available through an online subscription, 451 Research's Datacenter KnowledgeBase is the industry's most comprehensive database of MTDC providers' portfolio of facilities.

451 Research

S&P Global

Market Intelligence

Now available over Xpressfeed™ and Snowflake

The Datacenter KnowledgeBase dataset available over feed supports cloud services, ESG, energy, media and critical infrastructure analysis

This dataset includes:

- Datacenter location and ownership information
- Capacity (space/power/racks)
- Leased/available capacity
- Key identifiers to link to other Market Intelligence datasets
- Delivery via Xpressfeed FTP or cloud

Accurate, comprehensive intelligence directly sourced from datacenter owners

The Datacenter KnowledgeBase is updated quarterly, featuring more than 100 metrics per facility, and powered by primary research. The 451 Research MTDC team makes regular site visits across key markets on an annual basis, capturing data relevant to the KnowledgeBase data collection effort alongside briefings and surveys with datacenter owners. This effort provides:

- Identifying datacenter services, capacity and capabilities
- Assessing financing and investment opportunities
- Analyzing new market opportunities for the next datacenter
- Identifying sales opportunities within existing facilities and new builds

Global

Complete global dataset; includes all regions, countries and sites

Single global region

Complete dataset for a single global region

Large metro region

Complete dataset for a single metro region

Emerging metro region

Complete dataset for a single emerging metro region

Datacenter KnowledgeBase Service Components

Primary metrics covered

-  Datacenter locations
-  Datacenter space and utilization
-  Datacenter power and utilization
-  Datacenter racks and utilization
-  Datacenter density
-  New construction/expansion pipeline
-  Datacenter certifications
-  Marketing contacts

Online database subscription

The web-based Datacenter KnowledgeBase hosts quarterly site- and market- level data for current quarter. Dataset includes site- and market-level data and revenue estimates including data on new builds and expansions.

Key features include:

- Searchable interface with filters, customizable layouts and saved searches
- Exportability so you can grab the data you need when you are on the go
- Datacenter Tear Sheets for print- and presentation-ready packaging
- Country and regional market-level time series data plus five-year forecast on used and available datacenter capacity
- Data visualization through dynamic charts with export and print capabilities

On demand – Analyst inquiry

Ongoing, on-demand inquiry access to our entire quantitative datacenter analyst team for questions about the data or the methodology.

451 Research uniquely covers all phases of innovation, from investment to innovation to adoption. Through a variety of research techniques – including face-to-face briefings, end user surveys, forecast modeling, revenue tracking, in-depth interviews and acquisition tracking – 451 Research provides compelling and comprehensive coverage of IT innovation.

Our research and data products provide the right mix of quantitative and qualitative insight to impact your critical business decisions.
