You can also choose how frequently you want your data updated based on how you conduct your business.

New Dive into digitized credit research from S&P Global Ratings

Data scientists, research teams, and quantitative strategists interested in textual analysis and machine learning for investment, credit risk modeling, and developing sentiment / early warning models can now use RatingsXpress®: Research, S&P Global Ratings' digitized credit research, so you can:

- **Leverage metadata to power your research** and gain valuable perspective that lets you develop strategies with strong alpha potential.
- **Quickly identify & query relevant articles, citations, and key words**, so you can benchmark/compare multiple rated issuers, using additional data points beyond credit ratings.
- **Summarize lengthy articles** utilizing Natural Language Processing to parse content.

Extensive descriptive data

Ratings content from S&P Global Ratings provides a wide range of background details including:

- Rating, Outlook, and CreditWatch assessments with corresponding dates
- Asset class specific terms & conditions
- Regulatory identifiers (e.g., EE, EU) and LEI for issuing or endorsing Credit Rating Agency
- Collateralized Loan Obligation monitoring & performance benchmarks

Take a deeper look at a company's business, financial, industry and economic risk

Strengthen your credit risk management and benchmarking with Scores and Factors from S&P Global Ratings. Access the underlying business, financial, industry, and economic risk factors and assessments, plus the stand-alone credit profile, which drive an analyst's rating recommendation for Corporations and Banks.

- **Create meaningful financial benchmarks for internal risk models** to better understand a company's financial risk relative to its rated peer group
- **Understand an Issuer's stand-alone credit profile** to uncover hidden risks as a result of weakening support from the parent, affiliate, or related government
- **Rank companies with similar ratings from S&P Global Ratings** by assessing a company's business risk profile, its industry risk, and competitive position
- **Flexible delivery options:** Access RatingsXpress® and Scores & Factors through our powerful data feed management solution - Xpressfeed™. Alternatively, leverage our API Solutions for on-demand data delivery integrated with your systems, portals, and business applications

About S&P Global Market Intelligence

At S&P Global Market Intelligence, we know that not all information is important—some of it is vital. Accurate, deep, and insightful. We integrate financial and industry data, research and news into tools that help track performance, generate alpha, identify investment ideas, understand competitive and industry dynamics, perform valuations and assess credit risk. Investment professionals, government agencies, corporations and universities globally can gain the intelligence essential to making business and financial decisions with conviction.
