

The S&P Capital IQ® Platform

The S&P Capital IQ platform is your source for a powerful array of financial data, analytics, and research. Our web-based platform combines deep information on companies, markets, and people worldwide with robust tools for analysis, idea generation, and workflow management.

Boost Your Advantage and Productivity with the S&P Capital IQ Platform

- Perform deep company and industry research.
- Monitor companies and markets.
- Identify and leverage key relationships.
- Generate better ideas and targets.
- Build and maintain models and presentations.

Perform Deep Company and Industry Research

- Analyze company performance with S&P Capital IQ's industry-leading financials with over 5,000 individual data items, including industry-specific metrics on 17 industries. Our financials are adjusted for nonrecurring charges to enhance comparability and are auditable down to the source documents.
- Tap into deep fundamental data covering equities, fixed income, capital structure, credit ratings, transactions, private equity firm profiles, ownership, business relationships, and more.
- View extensive pricing and market data across all major quoted markets including equities, mutual funds, fixed income, indices, commodities, currencies, and interest rates.
- Create a comparable analysis instantly for companies, transactions, and fixed income securities.
- Utilize our Credit Health Panel to assess how risky a company is and how it is performing relative to other rated and unrated companies.
- Access our extensive collection of broker and independent research reports from leading investment banks, high-quality regional brokers, boutiques, and independents from around the world.
- Gauge analyst sentiment with S&P Capital IQ's consensus and detailed estimates as well as industry-specific estimates.

S&P Capital IQ Financials

The screenshot displays the S&P Capital IQ interface for S&P Global Inc. (NYSE:SPGI). The main window shows a 'Key Financials' table with columns for 12 months ending Dec-31-2021 and Dec-31-2022. Key metrics include Total Revenue, EBITDA, and Net Income. A callout box with an arrow points to a search result for 'S&P Global Inc. Form 10-K filed on Feb-08-2022', with a text overlay: 'Click-through to audit financials down to the source document'. Below the main window, there is a 'Current Capitalization' section with a bar chart showing Market Cap, TEV, and Total Capital. To the right, a secondary window shows a detailed financial statement for 2021, 2020, and 2019, including Revenue, Expenses, and Net Income.

Item	12 months Dec-31-2021	12 months Dec-31-2022
Total Revenue	8,297.0	9,990.69
EBITDA	4,710.0	5,086.12
Net Income	3,024.0	2,123.0

Upload your proprietary financials to integrate them with S&P Capital IQ platform tools and Excel® Plug-in.

Monitor Companies and Markets

- Build targeted email alerts for news and transactions affecting a given industry or list of companies.
- Get quick overviews on companies that matter to you most, including events and transcripts, analyst estimates, and updated financial performance.
- Detect short-, medium- and long-term credit deterioration for rated and unrated companies using our credit risk indicators.
- Use our portfolio management tools to quickly analyze your portfolio's performance, characteristics, and risk exposure.*

Identify and Leverage Key Relationships

- View detailed profiles on over 3.8 million private and public company executives, board members, and investment professionals globally.
- Map out an individual's relationship network based on employment history, education, and board memberships using our Relationship Tree.
- Overlay your own contact and relationship data to see your connections to an individual or company.

Generate Better Ideas and Targets

- Screen on a vast combination of financial, qualitative, and event-driven criteria such as management changes, corporate guidance changes, insider trading, and more. Create custom email alerts to track changes in your screening universe or pull your results into our Excel® Plug-in for deeper analysis.
- Use the Find Buyers and Targeting tools to search and rank potential buyers and investors based on investment criteria, stages of interest, transaction history, and financials.
- Enhance your investment strategy with proprietary research from S&P Global Market Intelligence's Quantamental Research Team and Global Markets Intelligence Group covering equities and fixed income.

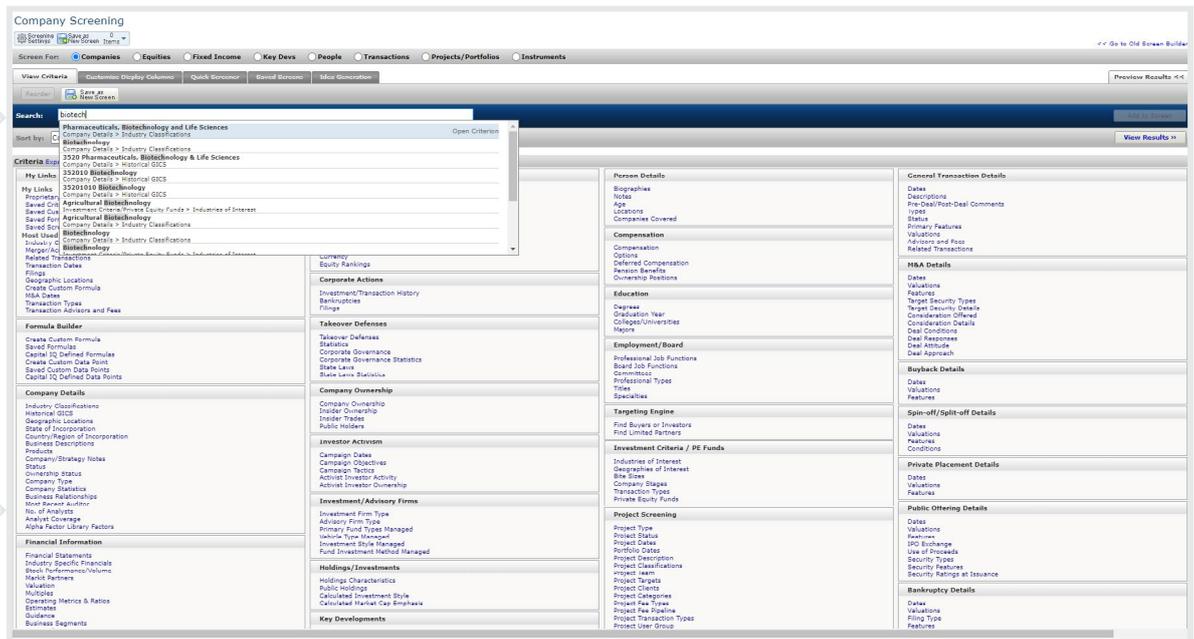

* S&P Global Market Intelligence offers several add-on portfolio management solutions designed to meet your investment strategy and workflow needs.

Screening Tool

Quickly search data points to add criteria

More than 5,000 financial and 3,000 qualitative data points available for screening.

Include even more screening items with the custom Formula Builder.

Our dedicated Application Specialists are here to assist you with model conversion, onboarding, advanced training, and consultation.

Efficiently Build and Maintain Models and Presentations

- Build financial models and complete data analysis tasks faster with the S&P Capital IQ Excel Plug-in. Seamlessly integrated with the web-based platform, our Excel Plug-in allows you to import financial, market and company data along with comp sets, filings, saved screens, and other information quickly and easily. Click-through to audit data items directly in Excel to view underlying calculations and link back to the source document.
- Streamline the model and presentation creation process with PresCenter, S&P Capital IQ's productivity suite for Microsoft Office®. Quickly format Excel models with shortcut commands and seamlessly link Excel data to PowerPoint® to ensure data consistency and accuracy within presentations.
- Generate detailed reports for a company or list of companies using the Report Builder tool from within the platform. Specify the content and display order, add your company logo and disclaimer, and customize the style and layout of your report.

Leverage Essential Data and Analytics

Our highly trained and dedicated in-house collection team operates 24 hours a day, 7 days a week to collect, process, and verify company filings just hours after release for both public and private capital markets. The collection team has significant experience working with the world's most prominent investment banks and financial institutions.

Content

Company Intelligence	Profiles of public and private firms include contact information, competitors and business relationships, auditors, comparables, corporate governance, and more. Over 62,000 public companies and 6+ million private companies profiled.
S&P Capital IQ Financials—Public Companies	Financials from all instances of a company's filings from press releases, initial and all subsequent filings. Covers 88,000 public companies with 49,000 active public companies representing 99% of the world's market capitalization.
S&P Capital IQ Financials—Private Companies	Financial statements are available for 825,000 private companies, including 10,000 private companies with public debt. All private company financials are standardized for full comparison against public company financials and market data.
Industry-Specific Data	In-depth global data for companies in the following 17 industries: Airlines, Asset Management, Banks, Health Care, Homebuilders, Hotels & Gaming, Insurance, Internet Media, Managed Care, Metals & Mining, Oil & Gas, Pharmaceuticals & Biotech, REITs, Restaurants, Retail, Semiconductors, and Telecommunications, Cable & Wireless. Seven standardized, industry-specific financial statement templates are available: Industrial (Standard template), Banks, Brokerage, Financial Services, Insurance, Real Estate, and Utilities.
Capital Structure	Detailed information about the debt and equity aspects of a company's capital structure. Debt capital structure data covers over 127,000 public and private companies, and equity capital structure data covers over 113,000 public and select private companies worldwide.
Fixed Income	Company-level summary data include current ratings from S&P Ratings Services and Moody's, key credit ratios, debt capital structure, maturity schedule, CDS data and latest issuance. Security-level details include coupon information, seniority, redemption features, pricing, advisors, covenants, and key documents such as indentures and prospectuses.
S&P Capital IQ Estimates	Detailed estimates covering over 19,000 active companies from over 610 active contributors with over 40 data measures including EPS, Revenue, EBITDA, and more, plus 30+ industry level data items (12 Oil and Gas items available on both S&P Capital IQ and S&P Capital IQ Pro, remaining items are available in S&P Capital IQ Pro and Xpressfeed only). History dated back to 1999 and 1996 for North America and ex-North America, respectively. Over 20 commodity target prices and over 5,700 estimates index aggregates are available. Easily view Long-Term Growth Rate, Target Price and Average Analyst Recommendations with seamless links to source documents.
Private Equity/ Venture Capital	Profiles on over 52,000+ private equity/venture capital firms, including investment professionals, limited partners, investment criteria, and fund data.
People Intelligence	Profiles on 3.8 million professionals, including biography, contact data, education, compensation, affiliations, and corporate board memberships.
Key Developments & Events	125 Key Developments types (including 32 Events) utilizing over 2,000 news sources. Key Developments types include Corporate Guidance – New/Confirmed, Announcement of Earnings, Executive Changes, and M&A Announcements.
Transactions	Over 1,000 data items created specifically for transactions with detailed transaction coverage for M&A deals, equity and new debt issues, private placements, buybacks, and spin-offs/split-offs.
Ownership	Current and historical company-level ownership information along with fund and institution data for over 49,000 public and private companies comprised of more than 36,000 institutional investment firms, 48,000 mutual funds and 324,000 insiders/individual owners.
Commodities	Information on commodities and futures markets, including details for over 1,000 securities with history as far back as 1970.
Macroeconomic Data	Extensive global coverage of historical and forecasted data on major economic indicators covering inflation, employment, GDP, balance of payments, trade, retail and industrial indicators, as well as currency, and stock index data.
Pricing & Exchange Data	Pricing and corporate action-related data from 148 exchanges across 120 countries globally (represents active equity coverage only).
News	Global news coverage from more than 10,700 sources in 25 languages.
Transcripts	Available transcripts covering more than 5,550 companies across all company specific events including live streaming coverage of more than 65% of earnings calls of our clients' most important companies.

Tools & Analytics

Excel Plug-in	The Excel Plug-in allows for dynamic access to content sets available on the platform within Microsoft Excel for the creation of custom formulas and models. A vast template library offers more than 140 prebuilt models, reports and charts for trading, deal and credit comps, M&A and LBO models, and more.
PresCenter	PresCenter for Microsoft PowerPoint streamlines the creation and updating of models and presentations. Dynamic links between Excel, PowerPoint, and Word ensure data consistency across files.
Outlook® Plug-in	Sync upcoming investor conferences and earnings calls from the platform's Events Calendar to your Outlook calendar. You can also sync and manage emails as platform activity logs for project management.
Screening and Targeting	Leverage a deep universe of financial and qualitative data items as criteria on a single screen to generate a list of ideas and targets.
Charting	Quickly chart data pulled from across the platform for visual trend analysis. Save charts individually or organize a group of charts into an album.
Credit Analytics***	Credit Health Panel provides a peer-relative credit assessment for rated and unrated companies based on operational, liquidity, and solvency ratios. Quantitative Credit Indicators include proprietary S&P Capital IQ calculated probability of default and CreditModel® scores.
Report Builder	Create custom Word, PDF, or Excel reports for a company or list of companies with aggregated content from the platform.
Relationship Management	Overlay your contacts with our professionals and company intelligence to more effectively organize, track and leverage your existing relationships.
Watch List	Create and save lists of companies to use across tools such as Screening, Alerts, and the Excel Plug-in. Customize your dashboard using any of your Watch Lists to view relevant information for the companies you follow.
Portfolio Analytics***	Upload your daily holdings to view portfolio-level analytics, such as intra-day contribution and exposures. View news, investment research, transcripts, and other time-sensitive information on your current positions.
Alpha Factor Library***	Facilitate the construction of your investment screens and candidate lists from a catalog of over 500 proven stock selection and industry-specific signals spanning seminal academic literature and the latest practitioner expertise, coupled with S&P Global Market Intelligence's Quantamental Research articles.
