Layers of Cross Reference Services

Reveal connections with a powerful set of capabilities.

Company Relationships

- Leverage our detailed corporate relationships data sets to capture and build a comprehensive corporate family tree.
- Identify the child to the parent, to determine the ultimate parent of a company, identify private equity sponsors, find current and prior investors, and more. Relationship types include acquisitions, investments, investment arms, lenders, affiliates, and index providers among others, with further classifications as current, prior, pending, or canceled.
- Quickly identify securities to a corporate hierarchy using the S&P Capital IQ Ultimate Parent ID. Link 1.6 million relationships to their corresponding securities.

Flexible Delivery

Leverage our comprehensive, integrated delivery platform, Xpressfeed™, with an optional, highly convenient loader that automates the download and management of data packages delivered at any frequency.

Access our broad range of Cross Reference Services to eliminate manual processes and enhance your workflow.

- **Streamlined Linking:** Link to a variety of company level data sets like Corporate Relationships, Business Entity Cross Reference Services, and Company Fundamentals.
- **Reporting:** Help meet regulatory reporting requirements that require a specific classification system while using a different classification for benchmarking.
- **Benchmarking:** Pick and choose one or multiple classifications to perform company comparisons and peer group analysis.
- **Screening:** Use multiple sector classifications to refine portfolios and sample sets.
- **Analysis:** Map regional and global classifications to measure exposure and assist in managing risk.
- **Select Asset List:** Capture majority owned subsidiaries of sanctioned entities including companies identified by the Office of Foreign Assets Control and European External Action Service, as it pertains to the Russia-Ukraine relationship.

About S&P Global Market Intelligence

S&P Global Market Intelligence integrates financial and industry data, research, and news into tools that help track performance, generate alpha, identify investment ideas, understand competitive and industry dynamics, perform valuation, and assess risk.
