

# We provide the data. You make the call.

Our Energy offering centralizes news, data, analytics, and proprietary regulatory research on electric power, natural gas, and water utilities in one easy-to-use online platform.

## **Behind every data point, there's a person— passionate about the Energy business.**

That's why you'll benefit from data beyond basic financial schedules, including utility-specific items like planned CapEx details, deep regulatory accounting details, plus customer sales, revenues, and counts. Perform "cost per customer" peer benchmarking analysis, credit analysis, and valuations. Or, visualize your market with our custom mapping tool.

## **Our utility regulation and financials research is your key to calculated business decisions.**

View detailed research on water, natural gas, and electric utilities from Market Intelligence Research, formerly Regulatory Research Associates (RRA), a group within S&P Global Market Intelligence who have years of experience in regulatory analysis. Review financial analysis, including:

- Topical special reports covering areas like capital expenditures or MLP cash flows
- Monthly market performance data reports
- Company reports with strategic overviews of business models.

Gain greater understanding of state utility regulation via State Commission profiles, along with a proprietary ranking.

Review regulatory analysis to stay on top of state utility regulation with:

- Real-time updates on key developments in rate cases
- Rate case history
- Detailed criteria - Requested Rate of Return, Authorized Rate of Return, Rate of Return, Rate base—for 30 years
- Continuously updated commission profiles
- Periodic reports on major regulatory issues

See SEC filings, FERC filings, monthly regulatory updates on water utilities, or state level gas utility filings financial and operating details.

## **You can't predict the future, but you can act strategically with trusted insight.**

With our power forecasting tool, your valuations can track current market conditions and recent developments. From swings in natural gas future strips, to permitting or changes in emission rules, we can help you forecast the market impact with our quarterly releases. We maintain details on every power plant project in development, so you can navigate hurdles as they arise.

Utility comparative analysis is made easy with our tools. Utility-specific financial and operating details are housed in our platform, including planned CapEx details, asset level operations, customer counts, through-puts, and volumes. Quickly query with our Excel Add-In, then fine-tune your analysis with customizable templates. Gain insight into operating costs by reviewing fuel and technology types. Or, review capacity factors and heat rates in aggregate.

We are so passionate about delivering the highest possible degree of quality that we offer \$50 rewards to clients who identify a verified mistake or omission in our data.

## **Run detailed analysis with our deep news summaries.**

With electric power newsletters linked to timely and relevant data, you're able to examine the issues core to your analysis: environmental, regulatory, corporate finance, M&A, infrastructure build, commodity markets, and more. Explore news and new summaries at the interval that best suits your schedule—daily, weekly, monthly, or real-time.

## **Turn to service you can count on.**

Nothing satisfies us more than helping you complete a project or meet a deadline. Turn to our 24x7x365 global support team anytime, from anywhere. We're just a phone call or email away.

## About S&P Global Market Intelligence

S&P Global Market Intelligence integrates financial and industry data, research, and news into tools that help track performance, generate alpha, identify investment ideas, understand competitive and industry dynamics, perform valuation, and assess risk.
