

# S&P Global

## Market Intelligence

# A single platform. An industry's needs.

S&P Global Market Intelligence's Energy offering enables custom mapping, project tracking and deep assessment of the energy sector. Whether you're a developer, renewables firm, utility, or power generator, our platform meets your myriad needs.

We continually monitor thousands of power plant, transmission, renewables and natural gas projects. We distill the most valuable insights with our data, news and analytics. You reap the rewards.

## Efficiency, crystallized

### Simplify sources

Visualize your market with our custom mapping tool. Quickly query with our Excel Add-In, then fine-tune your analysis with customizable templates. Act quickly with real-time articles from our Energy-focused news team. Review detailed regulation and financials research on water, gas and electric utilities with research from Regulatory Research Associates, a group within S&P Global Market Intelligence.

### Identify opportunities

Locate areas of opportunities for new investment by examining regional supply and demand, or reviewing consolidated project tracking and M&A, state and federal regulatory restrictions. Track current market conditions and recent developments to navigate tricky hurdles.

### Quickly benchmark

Benchmark power plant operations to identify best-in-class facilities in efficiency and production costs. See hourly load, forecasted load, and prices in one place. Analyze indexes for every major hub and market.

### Accurately forecast

With the Power Forecast tool in our Energy offering, you're able to use a single source for due diligence and forecasting. Integrate accurate projections into your strategy with power, natural gas and coal price forecasts in one place. Value energy assets with 20-year market indicative power curves or price forward capacity and energy at 28 pricing hubs.

### Leverage market-leading data and news

Our Energy offering is built on our market-leading fundamental content, deep asset-level data and industry-specific news from the SNL Energy database. From company financials and commodity pricing, to detailed statistics, summaries, and project tracking, SNL Energy data comprehensively covers industry subsectors like power, natural gas, renewables and coal. Our news provides clients with essential sector-specific, regulatory and financial updates.

## About S&P Global Market Intelligence

S&P Global Market Intelligence integrates financial and industry data, research, and news into tools that help track performance, generate alpha, identify investment ideas, understand competitive and industry dynamics, perform valuation, and assess risk.
