

What does the Metals & Mining solution bring to the market? **Here's our CV:**

S&P Global Market Intelligence integrates financial and industry data, research and news into tools that help track performance, generate alpha, identify investment ideas, understand competitive and industry dynamics, perform valuation and assess risk. Our Metals & Mining database provides a comprehensive source of global exploration budget details, in-depth reserves replacement analysis and other proprietary reports, as well as profiles on over 36,000 mining properties and coverage of 4,500 mining companies.

Asset/property data

Details on individual metals & mining mines, projects and processing facilities from early-stage through production, covering a wide array of commodities:

- Capacity & costs
- Capital costs
- Detailed production & cost models
- Development stage & activity status
- Development studies
- Discoveries & milestones
- Drill results
- Extensive early stage project coverage
- Financings
- Geology
- Location, map and claims
- M&A history
- News, events and filings
- Ownership details & history
- Production
- Reserves & resources (current & historic)
- Smelters & refineries
- Subcontractors
- Work history

Company data

- Advisors
- Assets and operations
- Capital structure
- Contract activity
- Corporate structure
- Development studies
- Drill results
- Earnings estimates
- Exploration spend data
- Financials
- Institutional owners
- M&A history
- News, events and filings
- Officers Production and reserves
- Stock chart

Commodity and Country-focused data

View aggregate and detailed metals & mining data from a commodity or country perspective.

- Country risk
- Current & historic commodity pricing
- Development studies
- Drill results & drilling activity
- Exploration spend data
- Industry cost curves by commodity
- Iron ore & coal trade data

- M&A history
- Metals & mining properties
- News
- Property financings history
- Top producers

Mine economics models

- Production Models
- Cost Models
- Cost Curves
- AISC
- Cash Flow Analysis
- Flex Models

Interactive mapping

Advanced mapping tool that combines comprehensive Metals & Mining data with the power and convenience of a cutting-edge browser-based mapping application.

- Advanced criteria based screening
- Claims
- Country risk layer
- Customize layer styles & labeling
- Global infrastructure, utilities, & ports
- Iron ore & coal trade flow data
- Properties/company holdings with direct links to details
- Save & export functions
- Spatial screening
- United Nations Environment Programme (UNEP) protected areas layer

Exploration data

The proprietary exploration data available in the Market Intelligence platform is the industry's benchmark for exploration trends and analysis.

Research & analysis

Keep your finger on the pulse of the industry with the latest research and trend analysis by our experienced research team:

- Commodity briefing service
- Corporate exploration strategies
- Industry monitor
- Metals markets reports
- Real-time email alerts
- Research articles
- Reserves replacement strategies
- State of the market reports

Data feeds & Excel add-in

- Asset-level data
- Capital offerings
- Capital structure
- Company financials & corporate data
- Custom templates
- Drill results
- M&A
- Real-time data via Excel® or data feeds

News

The most extensive collection of original reporting and analysis available anywhere in the sector, including proprietary news coverage, research and industry commentary, as well as comprehensive reports on all significant industry events.

- Daily Dose and our newsletter
- Links to corporate and asset, commodity and country data and documents
- Real-time email alerts
- Searchable story archive

Documents

Searchable by company, filing date and document type. Data is source-tagged throughout the online and

Excel environments:

- 10-Ks
- 10-Qs
- Annual reports
- Earnings releases
- Interim reports
- Investor presentations
- Merger press releases
- Metals and mining fi
- Other press releases
- Prospectus
- Quarterly reports
- Transcripts

S&P Global Market Intelligence provides comprehensive coverage of the following commodities:

Precious metals

- Gold
- Platinum group metals
- Palladium
- Platinum
- Silver

Base metals

- Cobalt
- Copper
- Ferromolybdenum
- Ferronickel
- Lead
- Molybdenum
- Nickel
- Tin
- Zinc

Bulk commodities

- Alumina
- Aluminum
- Bauxite
- Chromite
- Chromium
- Coal
- Ferrochrome
- Ferromanganese
- Iron ore
- Manganese
- Phosphate
- Potash

Specialty commodities

- Alloying metals
- Antimony
- Diamonds
- Ferrotungsten
- Ferrovanadium
- Graphite
- Heavy mineral sands
- Ilmenite
- Lanthanides
- Leucoxene
- Lithium
- Niobium
- Rare earth elements
- Rutile
- Scandium
- Tantalum
- Uranium

We also include the following commodities when involved in projects that have comprehensive commodity coverage or have some historical data in the database:

- Aggregates
- Aluminous Clay
- Arsenic
- Asbestos
- Barite
- Bentonite
- Beryl
- Beryllium
- Bismuth
- Borates
- Cadmium
- Caesium
- Calcium Carbonate
- Dysprosium
- Emerald
- Frac Sand
- Gallium
- Garnet
- Germanium
- Gypsum
- Hafnium
- Iridium
- Iron Sand
- Jade
- Kaolin
- Leucoxene
- Lignite
- Limestone
- Magnesium
- Marble
- Mercury
- Neodymium
- Osmium
- Rhenium
- Rhodium
- Rubidium
- Ruby
- Sapphire
- Selenium
- Silica
- Sodium Bicarbonate
- Strontium
- Tanzanite
- Tellurium
- Terbium
- Thorium
- Thulium
- Topaz
- Vermiculite
