

Knowledge for Your Growth Strategy

As a corporate development officer, having access to the right information at the right time can mean the difference between a successful deal and an M&A failure. Our comprehensive data and powerful screening capabilities let you access the insights you need—quickly—to achieve your growth objectives.

Identify Deals

- Create a list of targets by screening on both qualitative and quantitative criteria, including sub-sector, size, industry keywords, and location
- Filter for independent or sponsor-backed private companies, key developments, and companies with self-reported financials
- Access comparable company lists using our Quick Comps tool
- Get email alerts when new targets become available
- Identify key people and companies and access significant corporate events and financials directly through Salesforce

Conduct Valuations

- View multiples, valuations, and pricing for M&A transactions
- Access an extensive set of prebuilt model templates such as discounted cash flow (DCF), weighted average cost of capital (WACC), equity/transaction comps, and company Tear Sheets
- Uncover potential targets/opportunities and use analyst forecasts to evaluate companies with our Investment Research tool
- Build sophisticated financial models dynamically in the Excel Plug-in linked to the comprehensive data and content to help you analyze targeting companies

Uncover Relationships and Opportunities

- Screen public and private companies globally to find new opportunities of growth
- Analyze new strategic markets with detailed research and presentations from industry leaders
- Benchmark industry segments, financial metrics, and growth estimates to find strategic opportunities

Monitor Markets

- Use our Alert tool to track events and key developments for target economies, sectors, industries, and their constituents
- Access market-moving news, including private company transactions, corporate actions, product announcements, potential red flags, and M&A transactions with our Key Developments data
- View recent M&A activities, private placements, and equity/debt offerings with our Transaction data
