

# The Market Intelligence Platform

## A single platform for essential intelligence

The image displays the S&P Global Market Intelligence platform across three devices: a desktop, a smartphone, and a tablet. The desktop view features a top navigation bar with 'S&P Global Market Intelligence' and a search bar. Below is a dashboard with tabs for 'IB Dashboard' and 'IB Dashboard'. The main content includes a table of US General stocks with columns for Ticker, Entity Name, Last Price, Last Time, Net Chg (Reported), Chg (%), 52 Week Hi... (Reported), 52 Week Low (Reported), and Volume. To the right is a news feed titled 'Coronavirus' with various headlines and their publication dates. The smartphone view shows a mobile interface with a public companies list. The tablet view shows a map of the United States with red circles representing branches, overlaid with demographic data such as population and age groups.
