

Global Financial Sector Insights, Informed by World-Class Data

Focused News and Research That Delivers Essential Intelligence

At S&P Global Market Intelligence, we publish in-depth, sector-focused bank and financial services news stories and research reports every day to deliver the critical insights you need to understand what's driving markets and to surface risks and opportunities for your business. Our editorial team covers developments across the globe for 2,000 Asia-Pacific, 1,400 European, 450 Latin American and 5,300 North American banking and financial services companies, along with the deal-makers and investors that support them. Our research analysts compile community bank balance sheet projections; sector M&A outlooks; and fintech funding, product and partnership reports, unavailable anywhere else in the market.

Dive Deeper with Market Intelligence Financials Research

Take your knowledge to another level with Market Intelligence's sector research. Rely on our decades of financials experience to understand banking entities and the markets they serve. Our research analysts compile data and reports including:

- Five-year projections for income statements/ balance sheets of the U.S. bank industry; outlook for community banks, proprietary CECL (current expected credit loss) projections.
- M&A outlook reports for U.S. community banks.
- Five-year projections and market share estimates for select fintech segments in U.S., U.K., and Asia-Pacific markets.
- Detailed funding, product and partnerships data for fintech segments including digital lending, banking and payments, insurtech, and investments/ capital markets tech.

Deep, Accurate and Targeted Global Banking and Financial Services News
