Learn how an operations manager of a Port Services company working out of Felixstowe uses **AISLive's** enhanced tools for operational efficiency and to help generate new business.

Use the power of **AISLive's** filtering to quickly identify all vessels due into port in the next week by filtering live vessels:
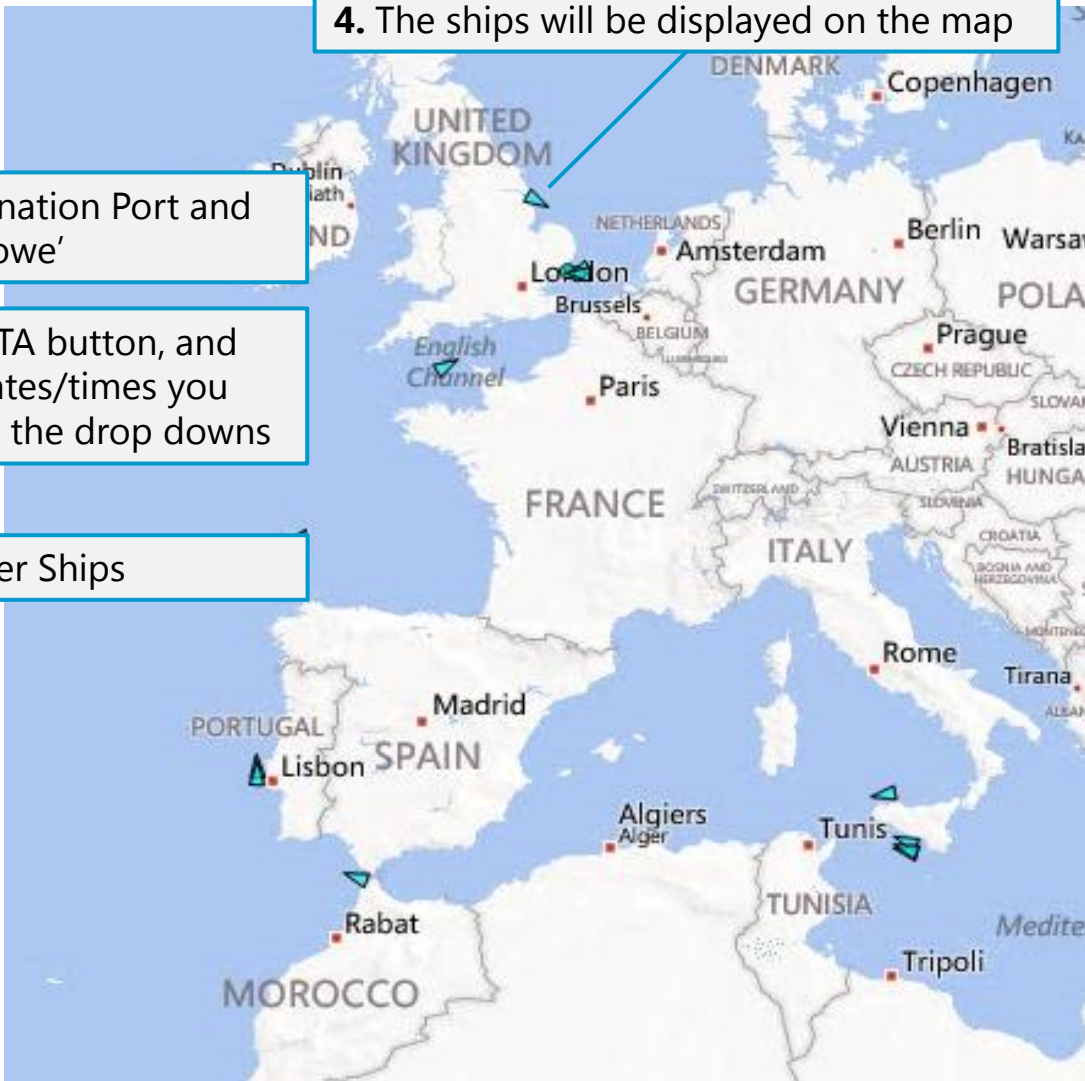

4. The ships will be displayed on the map

2. Tick Destination Port and type 'Felixstowe'

3. Tick the ETA button, and select the dates/times you require from the drop downs

1. Select Filter Ships

Real Time Intelligence

more buttons | fewer buttons

You will instantly see the Top 10
Destination will show Felixstowe – which
was selected in the Filters previously.

Information available within the
Real Time Intelligence reports include:
Last Port of Call (Top 10)
Ship Type (Top 10)
Operators (Top 10)
Technical Manager (Top 10)

1. Select Real Time Intelligence
the report will be displayed above

Zoom out to global view so
all results are included

Data generate is based on current ships in view on map

Clicking on a specific ship of interest will highlight it and the ship details will display in the details panel.

Details panel

You can then click on **AIS Extras** to obtain the contact details for the specific ships.
