# Sea-web Tool Tip

Utilising Sea-web's Reports Function

## Product Tip - Get invaluable market insight using Sea-web report function

Use Sea-web's simple reports to carry out vital market research with **120** standardised reports easily generated using **20** different fields to analyse and **6** ways to sort the reports.

**Example:** *Identify the largest operators of LNG vessels by largest LNG Fleet.*

Here is how in **4** easy steps

### Step 1

Go to the ships database and select the ship type LNG Tanker. Then click on Search Ships

The screenshot shows the 'Ship type filter' section of the Sea-web interface. It consists of two main panels: 'Available' and 'Selected'.

**Available Panel:**

- Ship type filter: Enter any part of a ship type to filter list, e.g. storage
- Ship type list:
  - TANKERS
  - Liquefied Gas
  - LNG Tanker (highlighted with a grey background)
  - LNG Tanker (highlighted with an orange box)
  - LPG Tanker
  - LPG Tanker
  - LPG/Chemical Tanker
  - CO2 Tanker
  - CO2 Tanker
  - Chemical
  - Chemical Tanker

**Selected Panel:**

- Contains the text '---LNG Tanker'.

Navigation buttons (arrows) are visible between the two panels, and a right arrow button is highlighted with an orange box, indicating the action to move the selected item from the 'Available' list to the 'Selected' list.

## Step 2

The grid view shows the global LNG vessels. Select **Reports**, then choose **Ships Analysis** to activate the report feature.

 **Sea-web**<sup>TM</sup>

Choose Report Type:
