

Platts Refined Products Alert

A page reference guide for PRF users

Platts Refined Products Alert (PRF)

Platts Refined Products Alert (PRF) gives traders, risk managers, analysts and energy executives a comprehensive set of information on the global and regional oil markets. From up-to-the-minute information on real-time deals, breaking news, and market analysis to the latest global price assessments, PRF provides timely and relevant insight so you stay on top of the markets and make critical business decisions with speed and clarity.

The PRF quick guide is designed to help you discover and navigate through the vast content available to you easily and more efficiently.

It includes:

- Page numbers to assessments and commentary by region for key content.
- Contact details of Platts' global editorial oil team.

This document is updated on a regular basis so go to www.spglobal.com/platts/en/our-methodology/symbol-page-directories to make sure you are using the most recent version.

Platts Flash Feature

A number of assessments and all key oil benchmarks are flashed on Platts Refined Products Alert as soon as they are published, in realtime. These flashes appear on PRF108.

All Platts News and Analysis in one location — page PRF100.

The areas Platts market reporters focus on each day are as varied as the global oil industry: from the hydrocarbon discoveries and dusters in the upstream, to planned and unplanned outages at refineries, pipelines and terminals; from the strategies and actions of global and regional companies to the intricacies of policy and regulation in both oil producing and consuming nations.

PRF100 gives you all the latest Platts news and analysis in one place*. You'll get:

- A real-time snapshot of what and who is moving global markets on any given day.
- Analytical coverage on what lies behind market moving events.

*Platts updates page Platts Refined Products Master Page Index, PRF101, as new content becomes available. At the time of this printing, this is the content outlined in the content master page index.
