Gain Greater Speed and Transparency in the Assessment Process

Platts eWindow is a data-entry and online communications tool that gives you a transparent, at-a-glance view of price assessment in the physical spot and derivatives markets.

Delivering greater speed and efficiency to the price assessment process for crude, as well as refined products and biofuels, Platts eWindow is used by more than 2,000 market participants from more than 460 companies, reaching 50+ markets worldwide since its introduction in 2007.

Platts eWindow facilitates the price assessment process by combining the Platts Market-On-Close (MOC) price assessment methodology with state-of-the-art technology, customized for S&P Global Platts and licensed from the Intercontinental Exchange (ICE).

With its real-time trading grid format, Platts eWindow provides a clear view of all firm bids, offers and transaction data communicated to Platts editors during the MOC process. It also allows participants, at the click of a mouse, to directly and simultaneously submit and confirm deal information to Platts and the marketplace.

In addition, the tool's compatibility with ICE technology allows Platts eWindow users to execute trades through ICE without leaving the Platts MOC environment.

Benefits

- **Clarity and transparency**
Instantly and clearly view order data from an online community of more than 1,300 users worldwide.
- **Efficiency and data management**
Directly manage orders, make price changes, and indicate trading requirements. A trader's and broker's work made easy!
- **Trade confirmation and data logging**
With ICE's system interface, back offices can instantly receive and process trade confirmations.
- **Counterparty clarity and credit management**
Better assess counterparty appropriateness through Platts eWindow's transparent environment, as well as ICE's integrated credit control system – including ICE Clear – for both physical and derivative trades.

Why use the functionality of instant messaging, telephone and email when you can reach Platts editors and the marketplace online through Platts eWindow?
