Customization Simplified

Real-Time Bespoke Analysis

Access flagship benchmarks and create customized versions, leveraging fund-level performance data from all contributing fund managers.

Filter by asset class, geography, vintage year, industry focus, fund size, IRR range, quartile and more.

Performance data is available since inception and for various time horizons.

Dynamic reporting functionality is designed for users to generate the following reports for both current and historical datasets:

Modified public equivalent analysis is available for flagship and customized benchmarks using three different methodologies:

Report Types	Time Horizons
	Annual Calendar Year
	Annual Rolling
Horizon	Multi-Period
	Custom Rolling
Since Inception by Vintage Year	

- Modified Public Market Equivalent (mPME)
- Direct Alpha
- Kaplan Schoar (K&S)

Performance multiples, cash flow and percentile analysis reports are also available.

Dynamic Data Mode

Experience the flexibility of dynamic data modes, which are designed to facilitate navigation between current datasets and historical snapshots.

Choose between the current quarter's preliminary data—updated daily as new information becomes available—and fully published datasets from prior quarters.

Simplified Report Exports and Streamlined Workflows

Access benchmark data with export options in Excel and PDF formats.

Incorporate results into presentations with ready-made PDFs or use Excel to create charts and detailed reporting to complement existing workflows.

Save, schedule and share previously created reports, with updated, new performance data.
