

S&P Digital Asset Indices

**S&P Dow Jones
Indices**

A Division of **S&P Global**

S&P Digital Asset Indices

Digital assets have become increasingly important to the global financial ecosystem. As demand grows, S&P Dow Jones Indices supports market participants seeking access to this asset class—without sacrificing index governance safeguards and transparent methodologies. Combining institutional rigor with crypto data and deep cross-asset expertise, we provide firms with the tools needed to confidently integrate cryptocurrency into their investment strategies.

Bringing industry-leading index intelligence to cryptocurrencies

With more index-linked AUM than any other index provider and 130 years of experience scaling trusted solutions across asset classes, S&P DJI extends its independent and rules-based standards to the fast-evolving digital asset market.

Institutional-grade governance

Oversight and crypto expertise are provided by the S&P Digital Assets Index Committee, which applies the same governance framework used across flagship S&P DJI indices.

Transparent methodologies and pricing data

Methodologies are made publicly available and periodically evaluated to ensure relevancy as the crypto market evolves. Pricing data is thoroughly vetted by S&P DJI and sourced from multiple well-established crypto native data providers through transparent, rules-based processes designed to promote accuracy and consistency.

Actionable market data

Easy-to-ingest, reliable traditional and digital asset index data supports automated workflows, risk management and performance analysis across chains. Data is available on an end-of-day basis, with real-time availability in select cases.

Comprehensive coverage

We offer index solutions for a wide variety of use cases, simplifying otherwise complex strategies. Our roster includes targeted **single-coin** benchmarks, **diversified approaches** that mitigate concentration risk by tracking multiple coins, strategies **combining digital assets and traditional equities within a single index**, and indices that identify and weight companies by their relevance to the crypto ecosystem using **built-to-purpose AI**.

Multi-asset expertise

Our broad multi-asset capabilities spanning equities, fixed income, commodities, private markets and digital assets enable market participants to construct innovative index blends that may enhance diversification and support more adaptable, resilient investment approaches across asset classes.

A holistic framework for tracking digital assets

S&P DJI offers market participants the leading-edge solutions needed to integrate cryptocurrency into broader strategies.
