PRESS RELEASE

S&P Dow Jones Indices Completes Its Annual Review of Adherence with IOSCO Principles for Financial Benchmarks (2026)

NEW YORK, September 9, 2026: S&P Dow Jones Indices (“S&P DJI”), the world’s leading index provider, announced today that it has completed its thirteenth annual review of its adherence to the International Organization of Securities Commissions (IOSCO) Principles for Financial Benchmarks. The IOSCO Principles for Financial Benchmarks were published in July of 2013.

The 2026 review was conducted by an independent global accounting and professional services firm and, as with all previous reviews, covers key aspects of S&P DJI’s index governance regime, control framework and operations including the separation of index governance and commercial activities, and the management and oversight of its policies and procedures.

"This annual review is an important part of how S&P Dow Jones Indices operates. It reinforces the strong controls that safeguard the independence of our index governance and the integrity of our market-leading benchmarks. As a global organization and the provider of iconic indices such as the S&P 500, we remain committed to the highest standards of trust, integrity and accountability while continuing to deliver innovative benchmarking solutions for our clients," said **Cathy Clay, CEO of S&P Dow Jones Indices**.

S&P DJI’s Management Statement of Adherence of the IOSCO Principles as well as the results of the independent review from an independent global accounting and professional services firm can be accessed via the company’s [Governance](#) website.

ABOUT S&P DOW JONES INDICES

S&P Dow Jones Indices is the largest global resource for essential index-based concepts, data and research, and home to iconic financial market indicators, such as the S&P 500® and the Dow Jones Industrial Average®. More assets are invested in products based on our indices than products based on indices from any other provider in the world. Since Charles Dow invented the first index in 1884, S&P DJI has been innovating and developing indices across the spectrum of asset classes helping to define the way investors measure and trade the markets.
