

S&P/TSX ESG Indices Consultation on Eligibility Requirements

AMSTERDAM, FEBRUARY 28, 2022: S&P Dow Jones Indices (“S&P DJI”) is conducting a consultation with market participants on potential changes to the S&P/TSX ESG Indices.

S&P DJI is proposing to make changes to the eligibility requirements used in these indices. The proposed changes are detailed below.

EXCLUSIONS BASED ON THE UNITED NATIONS GLOBAL COMPACT (“UNGC”)

S&P DJI is proposing to change the provider of UNGC data from Arabesque to Sustainalytics, and to exclude companies that are deemed by Sustainalytics to be Non-Compliant. The aim of this proposed change is to move away from the use of a continuous data set and towards a discrete data set.

EXCLUSIONS BASED ON BUSINESS ACTIVITIES

S&P DJI is proposing to introduce additional, expanded, and revised exclusions based on a company’s involvement in certain defined business activities. The additional exclusions cover Oil Sands, Small Arms and Military Contracting, the expanded exclusions cover Controversial Weapons, and the revised exclusions cover Tobacco. These changes are being proposed following feedback about our current exclusions. In addition, Significant Ownership exclusions will no longer be applied for categories where the Direct Level of Involvement Threshold is non-zero. This proposed change aims to avoid situations where companies could potentially end up being treated more harshly, as a result of the level of their indirect involvement, than they would be for their direct involvement. The table below details the changes:
