

S&P CORELOGIC CASE-SHILLER INDEX ACCELERATES IN OCTOBER

NEW YORK, DECEMBER 26, 2023: S&P Dow Jones Indices (S&P DJI) today released the latest results for the S&P CoreLogic Case-Shiller Indices, the leading measure of U.S. home prices. Data released today for October 2023 show that 11 of the 20 major metro markets reported month-over-month price increases. More than 27 years of history are available for the data series and can be accessed in full by going to www.spglobal.com/spdji/en/index-family/indicators/sp-corelogic-case-shiller.

YEAR-OVER-YEAR

The S&P CoreLogic Case-Shiller U.S. National Home Price NSA Index, covering all nine U.S. census divisions, reported a 4.8% annual change in October, up from a 4% change in the previous month. The 10-City Composite showed an increase of 5.7%, up from a 4.8% increase in the previous month. The 20-City Composite posted a year-over-year increase of 4.9%, up from a 3.9% increase in the previous month. Detroit reported the highest year-over-year gain among the 20 cities with an 8.1% increase in October, followed again by San Diego with a 7.2% increase. Portland fell 0.6% and remained the only city reporting lower prices in October versus a year ago.

The chart on the following page compares year-over-year returns of different housing price ranges (tiers) for San Diego.

MONTH-OVER-MONTH

Before seasonal adjustment, the U.S. National Index and 10-City Composite, posted 0.2% month-over-month increases in October, while the 20-City composite posted 0.1% increase.

After seasonal adjustment, the U.S. National Index, the 10-City and 20-City Composites each posted month-over-month increases of 0.6%.

ANALYSIS

"U.S. home prices accelerated at their fastest annual rate of the year in October", says Brian D. Luke, Head of Commodities, Real & Digital assets at S&P DJI. Our National Composite rose by 0.2% in October, marking nine consecutive monthly gains and the strongest national growth rate since 2022."

"Detroit kept pace as the fastest growing market for the second month in a row, registering an 8.1% annual gain. San Diego maintained the second spot with 7.2% annual gains, following by New York with a 7.1% gain. We are experiencing broad based home price appreciation across the country, with steady gains seen in nineteen of twenty cities. This month's report reflects trendline growth compared to historical returns and little disparity among cities and regions."

"Each of our 10-city, 20-city and National Index, remain at all-time highs, with 8 of 20 cities registering all-time highs (Miami, Atlanta, Chicago, Boston, Detroit, Charlotte, New York and Cleveland). While Portland remains slightly down compared to last year's gains, Phoenix and Las Vegas have flipped to year over year gains. The Midwest and the Northeast region are fastest growing markets, while the Southwest and West regions have lagged other regions for over a year. A solid, if unspectacular report, this month's index reflects a rising tide across nearly all markets."

PRESS RELEASE

“Home prices leaned into the highest mortgage rates recorded in this market cycle and continued to push higher. With mortgage rates easing and the Federal Reserve guiding toward a slightly more accommodative stance, homeowners may be poised to see more appreciation.”

SUPPORTING DATA

The chart below depicts the annual returns of the U.S. National, 10-City Composite, and 20-City Composite Home Price Indices. The S&P CoreLogic Case-Shiller Indices are published on the last Tuesday of each month at 9:00 am ET. They are constructed to accurately track the price path of typical single-family homes located in each metropolitan area provided. Each index combines matched price pairs for thousands of individual houses from the available universe of arms-length sales data. The S&P CoreLogic Case-Shiller U.S. National Home Price Index tracks the value of single-family housing within the United States. The index is a composite of single-family home price indices for the nine U.S. Census divisions and is calculated quarterly. The S&P CoreLogic Case-Shiller 10-City Composite Home Price Index is a value-weighted average of the 10 original metro area indices. The S&P CoreLogic Case-Shiller 20-City Composite Home Price Index is a value-weighted average of the 20 metro area indices. The indices have a base value of 100 in January 2000; thus, for example, a current index value of 150 translates to a 50% appreciation rate since January 2000 for a typical home located within the subject market.

These indices are generated and published under agreements between S&P Dow Jones Indices and CoreLogic, Inc.

The S&P CoreLogic Case-Shiller Indices are produced by CoreLogic, Inc. In addition to the S&P CoreLogic Case-Shiller Indices, CoreLogic also offers home price index sets covering thousands of zip codes, counties, metro areas, and state markets. The indices, published by S&P Dow Jones Indices, represent just a small subset of the broader data available through CoreLogic.
