

UPDATED: Decommission of Certain Fidelity Quality Value and Quality Income Indices

July 1, 2026: On behalf of our custom client, please be advised that the previously announced decommission effective after the close of **Friday, July 17, 2026** will now occur on **Friday, July 24, 2026**. S&P Dow Jones Indices will no longer calculate end-of-day of the attached list of **Fidelity Quality Value and Quality Income Indices. This change is being made to align the decommission with the Fidelity EM-EUR-JAP Markets Quality Value Indices.** Some end-of-day files will be impacted, and others will no longer be posted to the S&P Dow Jones Indices SFTP (EDX) site as of that date.

This would also include NC, NCS, NS versions of the files, where applicable.

Details about the indices are provided in the link below.
